

16

For 16 years the Triangle Community Center has been committed to the support, education and advocacy of the LGBT community.

Please join us for an evening of music, dancing, cocktails and hors d'oeuvres while sponsoring the crucial work of the Triangle Community Center and sharing in the **VISION**

www.ctgay.org

A powerful vision provides everyone in an organization with a shared mental framework that helps give form to the often abstract future that lies ahead. Effective visions provide a word picture of what the organization intends ultimately to become - which may be two, five, ten, or fifteen years in the future. A vision provides the basis for formulating strategies and objectives.
